7. 次の英文を読んで、あとの問いの答えとして最も適切なもの、または文を完成させるのに最も適切なものをア～エより選び、記号で答えなさい。

If you go to eastern Spain in August, you may see one of the world's biggest food festivals. In the small town of Bunol, 30 miles from Valencia, there is a local festival that lasts for a week. The main event of the festival starts at eleven o'clock on the last Wednesday in August. It is called La Tomatina.

More than 20,000 local people and tourists come to Bunol to enjoy La Tomatina. At La Tomatina, people throw tomatoes at each other for about two hours, so it is also known as the "tomato fighting" festival. More than 1,000,000 tomatoes, about 100,000 kilograms, are used for La Tomatina. After people have finished throwing them, the town becomes red with tomatoes. Of course, all of the people are covered with tomatoes, too. Some people do not wear shirts because they know they will get dirty. Also, people leave their cameras at home because taking pictures is very difficult during the tomato-throwing fight.

After the "tomato fighting" finishes at one o'clock, the town cleans the streets with a special machine. The town usually becomes clean in only a few hours. When everyone and everything is clean, then it is time for other fun, like music, parades, and dancing.

How did this interesting festival begin? The first La Tomatina was in 1945, but nobody knows why or how it started. Some people say it started as a fight between friends. Other people believe that it is about a war that happened long ago. But now, it is an event that many people both in Spain and abroad can enjoy.
